

Cashmaster *GenuOne* ™

A smart, fast, and easy way
of validating dollar bills
to protect your business
from counterfeit cash.

**VALIDATE BILLS
IN SECONDS!**

High Quality Counterfeit Detector

The Cashmaster GenuOne™ counterfeit detector's advanced technology and high-speed processing offer an accurate and reliable method of screening and detecting counterfeit bills.

GenuOne™ is easy to use: Simply insert each bill into the device and watch as it performs a rapid inspection of the bill's security features.

In combination with a money counting device from our Cashmaster One range, you will be perfectly equipped for cash handling activities and cash loss prevention.

Designed for Cash Handling Efficiency

The Cashmaster GenuOne™ is the ultimate bill validator for your business. In just 0.5 of a second, it scans bills to identify counterfeits, aiding cash loss prevention. The robust design and thoughtful visual and audible indicators make it a user-friendly, accessible tool for all staff, including those with sight and hearing impairments.

Why You Need the Cashmaster GenuOne™

- **Highly accurate** counterfeit detection
- Greater confidence in **cash authenticity**.
- **Saves time** for customer and cashier as bills are validated in less than a second.
- Increases bottom line by **catching shrink** before it happens.
- **Eliminates pressure** on staff to identify counterfeits manually.
- No learning curve - **intuitive operation**.

Features You Don't Want to Miss

- Reliably detects counterfeit bills in **half a second**.
- Insert bills in any orientation, **for ease of use and efficiency**.
- Uses **7 technologically advanced tests** to tell if a bill is a counterfeit.
- Validates the value of each bill to protect against reprinted or modified money
- Choose exit direction of bills from front or rear of machine.
- **Compact and portable** for added flexibility (with optional battery).
- Equipped for easy future software updates.

Switch on your
Cashmaster GenuOne™
and start validating
dollar bills in no time!
